

# Membership document

## WORLD FEDERATION PREVENTIVE & REGENERATIVE MEDICINE (WF-PRM)

### Our vision and aims are:

- Formation of a major critical mass based upon a joint representation of all stakeholders in the field, including science, technology, industry, therapeutic fields, patients and the public at large.
- A joint representation of the partnering societies, infrastructures and networks.
- An united world voice for the field.
- Partner societies, networks and infrastructures will be able to interact freely with the other partners.

The World Federation shall be a joint representation of all organizational entities with a global focus linked by our common interest in Preventive & Regenerative Medicine. The federal board will be formed by the figureheads / representatives of the stake holding societies, networks and infrastructures. An executive board will be chosen by the representatives.

Both individual and institutional membership of the respective institution does not carry any legal or financial obligation, but is a sole expression of interest to be a rightful member of the World Federation Preventive & Regenerative Medicine supporting the above named vision and aims. Withdrawal of membership is possible at any time by notification to the joint board of the World Federation Preventive & Regenerative Medicine.

I apply for Individual Membership and agree with the aims of the World Federation:   yes /   no

Benefits of membership include facilitated access to training and educational activities at reduced costs or access to grants, newsletters, participation in working groups, access to masterclasses in preventive and regenerative medicine, participation in elections and nominations.

I apply for institutional Membership representing also a stakeholder organization:   yes /   no

I agree to join the "World Federation Preventive & Regenerative Medicine" representing the following below named organization, society, network or institution, which will become thus a "Member" of the World Federation Preventive & Regenerative Medicine. All organizations in the field of preventive & regenerative medicine qualify for representation within the World Federation.

Further institutional benefits include possibility of board of directors membership by virtue of representing this organization. The board will issue the decision at the next scheduled board meeting.
